

### **Amendments to the Claims**

Claim 1 (Currently amended): A ~~preparation~~ composition comprising:  
from 5-30% by weight of Isphagula Husk, and  
from 1-20% by weight of at least one amino acid, and  
from 20-80% by weight of at least one carbohydrate and electrolytes for use as a  
therapeutical agent.

Claim 2 (Currently amended): Use of a ~~preparation~~ composition comprising:  
from 5-30% by weight of Isphagula Husk,  
from 1-20% by weight of at least one amino acid, and  
from 20-80% by weight of at least one carbohydrate and electrolytes for the preparation  
of a medicament for simultaneous or sequential use in treating a state of disorder  
on the intestinal system of monogastric animals, including human beings.

Claim 3 (Currently amended): Use of a ~~preparation~~ composition comprising:  
from 5-30% by weight of Isphagula Husk,  
from 1-20% by weight of at least one amino acid, and  
from 20-80% by weight of at least one carbohydrate and electrolytes for the preparation of a  
medicament for treating a state of disorder on the intestinal system of monogastric  
animals, including human beings.

Claim 4 (Currently amended): Use of a ~~preparation~~ composition comprising:

from 5-30% by weight of an agent comprising Isphagula Husk,  
from 1-20% by weight of at least one amino acid, and  
from 20-80% by weight of at least one carbohydrate and electrolytes for the preparation of a  
medicament for restoring the epithelium layer of the intestines of mammals, including  
human beings.

Claim 5 (Currently amended): A ~~preparation composition~~ according to ~~any one of~~  
claims 1 to 4, wherein the amount of Isphagula Husk is in the ~~interval range~~ of 10-30% by  
weight, ~~preferably 15-30% by weight, more preferably 25-30% by weight.~~

Claim 6 (Currently amended): A ~~preparation composition~~ according to ~~any one of~~  
claims 1 to 4, claim 1, wherein the amount of the at least one amino acid is in the ~~interval~~  
~~range~~ of 1-12% by weight, ~~preferably 2-9% by weight, more preferably 3-7% by weight.~~

Claim 7 (Currently amended): A ~~preparation composition~~ according to ~~any one of~~  
claims 1 to 4, claim 1 wherein the amount of carbohydrate is in the ~~interval range~~ of 25-  
50% by weight, ~~preferably 30-45% by weight, more preferably 35-40% by weight.~~

Claim 8 (Currently amended): A ~~preparation composition~~ according to ~~any one of~~  
claims 1 to 4, claim 1, wherein the amount of electrolyte is in the ~~interval range~~ of 8-40%  
by weight, ~~preferably 12-30% by weight, more preferably 15-25% by weight.~~

Claim 9 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition according to claim 1, wherein the at least one amino acid is comprised in the soluble components of lactic yeast.

Claim 10 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 1, comprising at least one amino acid selected from the group consisting of ~~all known amino acids, preferably at least one amino acid selected from the group consisting of~~ glutamine, arginine, lysine, histidine, phenylalanine, tyrosine, leucine, isoleucine, methionine, valine, alanine, glycine, proline, glutamic acid, serine, threonine, aspartic acid, tryptophan, cystine, more preferably at least one amino acid selected from the group consisting of glutamine, arginine, alanine and glycine.

Claim 11 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein the amino acid is ~~amount of~~ glutamine and is in the interval range of up to 10% by weight, ~~preferably up to 5% by weight, more preferably 0.1-4% by weight, even more preferably 0.2-3% by weight.~~

Claim 12 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein the amino acid is arginine and the amount of arginine is in the interval range of up to 5% by weight, ~~preferably up to 3% by weight, more preferably 0.1-2% by weight, even more preferably 0.1-0.5% by weight.~~

Claim 13 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein at least one of the salts comprised by the electrolytes and is at least one of the salts which will replace at least one of the salts lost by diarrhoea.

Claim 14 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein said at least one carbohydrate is glucose.

Claim 15 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein the electrolytes are a mixture of at least two of the substances selected from the group consisting of magnesium oxide, magnesium carbonate hydroxide, magnesium hydroxide, magnesium silicate, calcium silicate, calcium carbonate, sodium chloride, potassium chloride, sodium hydrogen carbonate, potassium hydrogen carbonate, aluminium phosphate, aluminium hydroxide, citric acid, sodium citrate, trisodium citrate dehydrate and potassium citrate.

Claim 16 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 10, wherein the electrolytes are a mixture of at least two of the substances selected from the group consisting of magnesium hydroxide, sodium chloride, potassium chloride, sodium hydrogen carbonate, citric acid, trisodium citrate dehydrate and sodium citrate.

Claim 17 (Currently amended): A ~~preparation according to any one of the preceding claims~~  
composition of claim 10, further comprising at least one filler, at least one taste corrigent, at  
least one colouring agent.

Claim 18 (Currently amended): A ~~preparation according to any one of the preceding claims~~  
composition of claim 10, further comprising a filler.

Claim 19 (Currently amended): A ~~preparation~~ composition according to claim 18, wherein  
the filler is a fibrous bran material.

Claim 20 (Currently amended): A ~~preparation~~ composition according to claim 18, wherein the  
filler is wheat flour.

Claim 21 (Currently amended): A ~~preparation according to any one of the preceding claims~~  
composition of claim 19, further comprising a pharmaceutically acceptable colouring agent.

Claim 22 (Currently amended): A ~~preparation according to any one of the preceding~~  
~~claims~~ composition of claim 17, wherein the colouring agent is FD&C RED #40.

Claim 23 (Currently amended): A ~~preparation according to any one of the preceding~~  
~~claims~~ composition of claim 1, further comprising alfa-tocoferol (natural vitamin E).

Claim 24 (Currently amended): A ~~preparation according to any one of the preceding claims~~ composition of claim 1, wherein said preparation consists of 27.16% Isphagula Husk, 10.66% of lactic yeast mixture including glutamine, 19.75% electrolytes which are made up of 3.30% potassium chloride, 7.08% sodium hydrogen carbonate, 4.85% sodium chloride, 3.45% trisodium citrate dihydrate, 1.07% magnesium hydroxide; 38.10% dextrose monohydrate, 0.87% nicotinamide, 0.30% flavouring agent, 0.20% silicium dioxide, 2.43% wheat flour, 0.03% feed colouring agent, 0.50% alfa-tocoferol (natural vitamin E), where the percent by weight is calculated on the basis of the finished preparation.

Claim 25 (Currently amended): Use of a ~~preparation according to any one of the preceding claims~~ composition of claim 10 for manufacture of a medicament for treating diarrhoea.
